

MOHAMED WASEM AKRAM

Mohamewasem2004@gmail.com | +91 9585053968 | Chennai, India | [LinkedIn](#)

PROFESSIONAL SUMMARY

Enthusiastic and quick-learning aspiring IT professional seeking an opportunity to apply technical skills and academic knowledge in dynamic organization. Skilled in Python, Java, HTML, Cloud Computing, and AWS Infrastructure, with strong problem-solving abilities, adaptability, and a commitment to continuous learning.

EDUCATION

Bachelor of Technology — Information Technology Aalim Muhammed Salegh College of Engineering CGPA: 7.1	2022 – 2026
Higher Secondary Certificate (HSC) Fathima Mariyam Higher Secondary School 68%	2021 – 2022

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, HTML, CSS

Frameworks & Libraries: React.js, Node.js, Express.js, FastAPI

Cloud & DevOps: Amazon Web Services (AWS), Cloud Infrastructure, Application Deployment

Databases: MongoDB, MySQL

Soft Skills: Critical Thinking, Problem Solving, Managing Cloud Projects

INTERNSHIP EXPERIENCE

AWS Cloud Intern — iStudio Technologies Remote	2025
- Set up and optimized cloud infrastructure on Amazon Web Services (AWS). - Deployed and managed applications using AWS services including EC2, S3, and related tools. - Gained hands-on experience with cloud architecture best practices and cost optimization.	

PROJECTS

Flight Management System | Node.js, Express.js, MongoDB, MySQL | GitHub

- Built a full-stack flight management system using Node.js and Express.js to handle flights, schedules, seat availability, and secure booking with role-based access control.
- Integrated MongoDB and MySQL databases with optimized queries and indexing, improving data retrieval performance and ensuring reliable storage of flight and passenger records.

ProjectGPT — Local-First AI Application | Python, FastAPI, Hugging Face, Mistral

- Developed a custom local AI runtime to run Mistral language models entirely on-device, eliminating dependency on external APIs.
- Built a FastAPI backend integrated with Hugging Face for model access, delivering an Ollama-like inference experience for local deployments.

CERTIFICATIONS

- AWS Cloud Practitioner — AWS Skill Builder
